**What to Expect at Well Checks**

We believe wellness visits help lay the foundation for a healthier future for children. Wellness visits are a dedicated time for vaccines, general guidance, growth checks, developmental surveillance, disease screening, mental health assessment, and discussion about social and educational performance.

| **BIRTH - 1 MONTH** | • Hepatitis B  
• Hearing Screen  
• Newborn State Screen  
• Jaundice Check  
• Weight Check(s)  |
| **2 MONTHS** | • DTaP-Hib-Polio  
• Pneumococcal vaccine  
• Hepatitis B  
• Rotavirus  |
| **4 MONTHS** | • DTaP-Hib-Polio  
• Pneumococcal vaccine  
• Hepatitis B  
• Rotavirus  |
| **6 MONTHS** | • DTaP-Hib-Polio  
• Pneumococcal vaccine  
• Hepatitis B  
• Rotavirus  |
| **9 MONTHS** | • Catch Up Vaccines  
• Developmental Screen  |
| **12 MONTHS** | • Hepatitis A  
• MMR and Varicella  
• Vision Screen  
• Dental Screen  
• Anemia/Lead Screen  |
| **15 MONTHS** | • DTaP-Hib-Polio  
• Pneumococcal vaccine  |
| **18 MONTHS** | • Hepatitis A  
• Autism Screen  
• Developmental Screen  |
| **24 MONTHS** | • Catch Up Vaccines  
• Vision Screen  
• Dental Screen  
• Anemia/Lead Screen  
• Autism Screen  |
| **30 MONTHS** | • Optional Visit  
• Developmental Screen  |
| **3 YEARS** | • Vision Screen  
• Lipid Screen - If Needed  |
| **4 YEARS** | • MMR-Varicella  
• DTaP-IPV  
• Hearing Screen  
• Vision Screen  |
| **5-10 YEARS** | • Yearly Exam  
• Vision Screen  
• Hearing Screen  
• Lipid Screen  |
| **11-13 YEARS** | • Tdap  
• Meningitis ACYW  
• HPV vaccine (2 Doses)  
• Yearly Exam  
• Vision Screen  
• Hearing Screen  
• Labwork If BMI > 95%  
• Urine Test - As Needed  |
| **14-15 YEARS** | • Yearly Exam  
• Vision Screen  
• Hearing Screen  
• Labwork If BMI > 95%  
• Lipid Screen  
• STI Screen - As Needed  |
| **16+ YEARS** | • Meningitis ACYW  
• Meningitis B (2 Doses)  
• Yearly Exam  
• Vision Screen  
• Hearing Screen  
• Labwork If BMI > 95%
